

Sky Gastinel and Andrew Matel

Mr. Ettlin

AP Computer Science Principles, Period 1

9 January 2020

Classwork 109

Row one: Point not awarded because it does not identify the intended purpose or function of the computing innovation.

Row two: Point not awarded because the purpose was not stated correctly.

Row three: Point not awarded because although it mentions the iPhone X having an effect, the effect is not accurately identified one.

Row four: Point not awarded because the response does not include any accurate effects at all.

Row five: Point not awarded because the described effects do not relate to society, economy, or culture.

Row six: Point awarded because the response describes data and how it is used in the computing innovation.

Row seven: Point awarded because the response includes a security concern related to data.

Row eight: Point awarded because the response includes sources that are cited throughout the responses.
