Sky Gastinel and Andrew Matel

Row one: Point not awarded because the artifact does not describe the computing innovation's intended purpose or function.

Row two: Point awarded because although brief, the explanation does provide an intended purpose of the computing innovation.

Row three: Point awarded because it identifies an effect.

Row four: Point awarded because the response includes a beneficial effect and a harmful effect.

Row five: Point awarded because the response includes an effect on the economy as well as society.

Row six: Point not awarded because the response fails to describe the actual data.

Row seven: Point awarded because the response includes a concern related to data security.

Row eight: Point awarded because sources were cited throughout their responses and included in a list at the end.
