Sky Gastinel and Garrett Faure

Mr. Ettlin

AP Computer Science Principles, Period 1

13 January 2020

Classwork 113

Row one: Point not awarded because the artifact does not display what specifically the computing innovation is.

Row two: Point awarded because the response includes what the computing innovation is as well as its intended purpose.

Row three: Point awarded because the response includes an accurate effect of the computing innovation.

Row four: Point awarded because the response includes a beneficial and harmful effect of the chosen computing innovation.

Row five: Point not awarded because the effects listed are not true effects on society, culture, or economy.

Row six: Point awarded because the response describes the data used as well as how it is processed and transformed.

Row seven: Point not awarded because there is no concern listed related to data in this response.

Row eight: Point not awarded because although they do list sources at the end of their responses, they do not integrate any citations.
