Sky Gastinel and Garrett Faure

Mr. Ettlin

AP Computer Science Principles, Period 1

10 January 2020

Classwork 110

Row one: Point awarded because the artifact includes a purpose/function of the computing innovation.

Row two: Point awarded because the response describes the computing innovation's intended purpose and it describes the innovation as well.

Row three: Point awarded because the response includes an effect of the computing innovation accurately.

Row four: Point awarded because the response describes a harmful and beneficial effect. \

Row five: Point not awarded because the response does not describe how the effects relate to economy, culture, or society.

Row six: Point awarded because the response describes what data is used in the innovation as well as how it is transformed.

Row seven: Point awarded because the response describes a security concern when it comes to the data used.

Row eight: Point not awarded because although three sources are listed in their last response, there are no in-text citations throughout their other responses.
